Tell us your story:

Imagine yourself in 50 years time, telling one of your grand-daughters about your wedding day. Imagine painting a picture with words of how you looked and felt, how you dress flowed, your jewellery glistened... what does this picture look like? I felt like a princess, special and unique, with a crisp white gown that was fun, but also classic, it had soft layers that glistening in the sun with sparkly beads. I laughed all day with happiness! My hair was long and flowing with a fanciful feel, there were feathers and pearls in my hair 😊

When you were young and you dreamed or imagined your wedding day, what did you dream of? I always loved the Disney movie, beauty and the beast and imagine myself looking just like Belle in **her ball gown dancing around the ball room!**

If you had to describe your overall wedding parties' look and feel in a few words what would they be? Natural, something that each girl suits, colours to match the season.

If you had to describe your whole weddings look and feel in a few words what would they be? Natural, with little special details, fun and friendly, inclusive.

Describe your wedding, photo and reception venues: Beautiful old stone church with a garden setting, then photo's at a park with stunning cliffs, old trees and winding walkways.

When you're really happy do you laugh or cry? Laugh

If your best friend was to describe you to a stranger, what words would they use? A little crazy! Energetic, fun and bouncy!
